

Maintenance Instructions: **CleanStrip**

APPLICATION INSTRUCTIONS FOR CLEANSTRIP:

Dilute 16 ounces of CleanStrip (1:8) for routine stripping (1-10 coats), 32 ounces (1:4) for medium build-up (11-15 coats), 64 ounces (1:2) for heavy build up (15-25 coats) or 128 ounces (1:1) for severe build-up (25+ coats) per gallon of COLD water only.

Apply stripping solution with a mop, and let it stand for five minutes. Removing heavy finish build-up may require scrubbing with a 175-300 rpm buffing machine equipped with a black stripping pad. Remove the dissolved finish and solution with a wet vacuum. Any residual dissolved floor finish not removed by vacuuming should be removed by light rinsing or damp mopping.

Allow the floor to dry thoroughly before applying any finishes.
